PROFESSIONAL SUMMARY

I am a growth-minded BCA candidate with hands-on full-stack web development experience, having built and deployed applications using HTML, CSS, JavaScript, React, Node.js, and MongoDB, and completed a Full Stack Development internship at Infidata Technology. Also exploring Machine Learning and Artificial Intelligence through coursework and certifications. Seeking a Full Stack Developer role to build scalable, real-world applications

EDUCATION

Bachelor of Computer Applications (BCA) — Presidency College, Bengaluru CGPA: 7.55 / 10 Coursework: Data Structures, DBMS, Web Technologies, Python Programming	2024 – 2027
12th (PCMC) — Nagarjuna College Percentage: 63%	2024
10th — BG National Public School Percentage: 88% — Academic Distinction	2022

TECHNICAL SKILLS

- Programming Languages: Python, SQL, JavaScript, Java, HTML, CSS, Node.js
- Frontend & Frameworks: React, HTML, CSS, JavaScript
- Databases & BI Tools: MongoDB, Power BI
- Tools & Frameworks: Git, REST APIs, Express.js
- Core Competencies: Model Development, Data Preprocessing, Feature Engineering, Data Visualisation
- Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability

INTERNSHIP EXPERIENCE

Full Stack Development Intern — Infidata Technology, Yelahanka Built REST APIs with Node.js/Express, integrated MongoDB, and collaborated in an agile team. Debugged and optimized existing modules, improving application performance and reliability. Participated in code reviews and sprint planning, strengthening collaborative development practices.	May 2026 – Jul 2026
--	---------------------

PROJECTS

Hospital Management System — MediCare HMS Built a full-stack CRUD app managing hospital operations for 500+ patient records and appointment bookings. Enabled patients to book appointments online and access digital medical records and prescriptions through a unified dashboard. Implemented an online billing module to streamline payment processing for hospital services. Designed a responsive, component-based UI in React with dynamic dashboards for patients and staff, backed by RESTful APIs connected to a MongoDB database. Tech Stack: HTML, CSS, JavaScript, React, Node.js, MongoDB Live Demo: hospital-management-eight-snowy.vercel.app	2026
---	------

AI Guardian — AI-Powered Women's Safety Platform Built a real-time safety platform combining gesture recognition (MediaPipe), scream detection, and weapon/object detection (YOLOv8) into a live camera dashboard with instant alerting. Trained a CNN-based scream classifier using PyTorch and a Random Forest risk-prediction model with scikit-learn to flag high-risk situations. Implemented a one-tap SOS system and a Python/FastAPI backend with JWT auth, MongoDB, and WebSocket alerts; containerized with Docker and CI via GitHub Actions. Tech Stack: Python, FastAPI, PyTorch, scikit-learn, MediaPipe, YOLOv8, React, MongoDB, Docker Live Demo: ai-guardian-women-safety.vercel.app	2026
--	------

ACHIEVEMENTS

- Best Paper Award (co-authored), "Moral Values as a Missing Link between Education and Health" — National Seminar, Presidency College with IIPA Karnataka (Aug 2026).
- Academic Distinction, 10th Grade.

LEADERSHIP & CERTIFICATION

- Hospitality Team Member — "Kalopsiya" college fest, Presidency College: assisted with event logistics and on-ground coordination.
- Helpdesk Volunteer (query support) and IT Club Member, Presidency College.
- Introduction to AI Concepts — Microsoft Learn (May 2026)
- Introduction to Artificial Intelligence — NASSCOM / FutureSkills (May 2026)
- Data Science & Introduction to OpenAI GPT Models — Infosys Wingspan (May 2026)
